

## **Appropriate Assessment Screening Determination**

### **Rockchapel Customer Connection**

In accordance with Article 6(3) of the EU Habitats Directive (Directive 92/43/EEC) and Regulation 42(1) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, ESB has undertaken Screening for Appropriate Assessment to assess, in view of best scientific knowledge and the conservation objectives of the relevant site(s), if the project, individually or in combination with other plans or projects is likely to have a significant effect(s) on a European Site(s).

The project comprises the extension of the existing Rockchapel 38 kV OHL by installing three new electricity poles, including new earths, stays and transformers (approximately 250 m in length of new line). The purpose of these proposed works is to connect a new customer (a recently constructed residential property) to the existing electricity supply.

The relevant European Sites identified as being within the zone of influence of the project, and which were considered within the Screening for Appropriate Assessment are:

- Lower River Shannon SAC (002165)
- Stack's to Mullaghareirk Mountains, West Limerick Hills and Mount Eagle SPA (004161)

In accordance with Regulation 42(7) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, ESB has made a determination following screening that an Appropriate Assessment is not required as the project is not directly connected with or necessary to the management of the sites as European Sites and it can be concluded, on the basis of objective information, that the project, individually or in combination with other plans or projects is not likely to have a significant effect on any European sites.

This determination is based on the location, scale, extent and duration of the project, including temporary works and excludes any consideration of mitigation measures.

Full records of the assessment, reports, surveys, consultations and observations are held by ESB and available for public review as requested.
