# Distribution Energised Renewable Q2 2025

DOC-300424-HXV

For queries related to DSO generators please contact ESB Networks at [DSOGenerators@esb.ie](mailto:DSOGenerators@esb.ie)

|                                   |                                                                                                                                                                                      |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>CHP:</b>                       | Combined Heat and Power                                                                                                                                                              |
| <b>AD Biogas:</b>                 | Anaerobic digestion (AD) biogas (excludes biogas from landfill sites)                                                                                                                |
| <b>LFG:</b>                       | Land Fill Gas                                                                                                                                                                        |
| <b>MEC:</b>                       | Maximum Export Capacity                                                                                                                                                              |
| <b>On Hold:</b>                   | Project has been placed on hold, typically at the customer's request                                                                                                                 |
| <b>Connected/Energised:</b>       | Generators with electrical connection to the network                                                                                                                                 |
| <b>Contracted:</b>                | Generators that have signed a connection agreement with the System Operator and are committed to exporting MW's to the distribution and/or transmission system at a future date.     |
| <b>Live Connection Assessment</b> | Community-led generators that have been issued with a Distribution System Operator (DSO) connection assessment. The capacity will be held for two years to gain planning permission. |

Information correct: 01/07/2025 Rev. 5
