

LOOK AROUND YOU, IT COULD SAVE YOUR LIFE

Making contact with overhead electricity wires or even coming close puts you at serious risk of injury or death from electrocution.

Avoid serious injury when you are fishing. Always ensure that when you cast off, you are clear of any nearby electricity wires.

Never take risks near electricity wires, when you are:

- Fishing • Sailing • Motorboating • Moving goalposts around
- Putting up a tent • Hand-gliding • Hot-air ballooning or flying kites
