

For connections with an installed generation capacity between 25A (~6kVA) and 72A (~17kVA) for single phase connections and between 16A (~11kVA) and 72A (~50kVA) for three phase connections

ESB Networks DAC requires the information requested on this application form to manage your electricity supply connection. As the Distribution System Operator, this information is also required to enable ESB Networks DAC to manage the electricity network. The data controller is ESB Networks DAC. Please refer to our privacy policy at <https://esbnetworks.ie/privacy>.

FOR OFFICIAL USE ONLY

Date received: _____
 Planner group: _____
 DUOS group: _____
 Supplier: _____

Please fill in all sections in BLOCK CAPITALS
Do not leave any section blank; N/A to be used if it doesn't apply.

1. Applicant Details

Full name of the applicant: (if a company or a partnership give full company or trading name)

 Full address of legal applicant required (in the case of a body corporate, the registered or principal office)

 _____ Eircode _____
 Company Reg. no, if applicable _____
 Mobile number: _____ Landline: _____
 Email: _____
 Contact details as per above. Company's registered address will be used as the correspondence address.
 Contact Person:

2. Site Address (if different from above)

 _____ Eircode _____

3. Generator Application Fee

Please note that a generator application fee is required for this application. Please visit our website www.esbnetworks.ie for the current application fee for Mini-Generation. Please refer to our website www.esbnetworks.ie/services/payments/make-a-payment for payment methods available.

6. Mini-Generator Details Note: Unless stated otherwise in Type Test, RScE =33 will be used as the basis for Harmonic assessment calculations.

Include details of existing generators, if retaining.

	New Generation Proposed:					
	Unit 1		Unit 2		Unit 3	
Single Phase / Three Phase	1PH <input type="checkbox"/>	3PH <input type="checkbox"/>	1PH <input type="checkbox"/>	3PH <input type="checkbox"/>	1PH <input type="checkbox"/>	3PH <input type="checkbox"/>
Energy Source: (Wind (W) / PV (P) / Hydro (H) / CHP (C) / Battery (B) / Other (O))						
Manufacturer						
Manufacturer's Model / Reference No.						
Inverter Low Carbon Technology (LCT) Register Reference For more information please see https://esbnetworks.ie						
Inverter Capacity (kVA) Note that Cumulative Inverter Capacity cannot exceed the lesser of MIC or 50kVA, and that the peak output must not exceed the MEC or ELS limits						
Rated Output Current (Amps) Note: Not to exceed 72 Amps						
Generation (kVA) installed behind each inverter Note: This refers to the size of the PV array connecting to each inverter						
Storage (kVA) installed behind each Inverter						
Confirm that interface will have Irish settings installed as per Conditions Governing the Connection and Operation of Mini-generation DOC-030221-GAP	Yes <input type="checkbox"/>	No <input type="checkbox"/>	Yes <input type="checkbox"/>	No <input type="checkbox"/>	Yes <input type="checkbox"/>	No <input type="checkbox"/>
Does Interface have type test certification as per Conditions Governing the Connection and Operation of Mini-generation DOC-030221-GAP?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	Yes <input type="checkbox"/>	No <input type="checkbox"/>	Yes <input type="checkbox"/>	No <input type="checkbox"/>

7. Signature of applicant / Authorised signatory

Signed: _____

Full Name (BLOCK CAPITALS): _____

Position Held: _____ Date: _____

You agree to let ESB Networks DAC connect the network to your equipment. You acknowledge that we are entitled to connect other customers to the network.

We may need evidence that you have the authority to sign this form. If you are a third party making this application please attach a letter of authority from the registered account holder.

8. Data Protection

ESB Networks DAC may use your personal data to the extent necessary (a) to set up and manage your connection agreement (b) for compliance with its licence and other legal obligations; and/or (c) for its legitimate interests (provided those interests do not conflict with your fundamental rights and freedoms) Personal data provided by you in this application form may be disclosed to other parties in the following circumstances:

- In performing its functions, ESB Networks DAC may utilise the services of contractors or other suppliers. ESB Networks DAC may disclose your data to these parties to the extent necessary to perform their functions and provided they are only permitted to use your data as instructed by ESB Networks DAC. They are also required to keep your data safe and secure.

- ESB Networks DAC may make available the existence, location and/or technical aspects of your connection to licensed electricity supply companies and other parties involved in your electricity supply. In the case of new connections, ESB Networks DAC will make available your telephone contact number to licensed electricity supply companies in order to facilitate energisation of the connection.
- ESB Networks DAC may be required by law, or our license obligations, to provide data that ESB Networks DAC holds about you, your electricity supply or connection, to government agencies or departments, the Commission for Regulation of Utilities or other third parties.
- Contact details may also be provided to a professional third party market research company for the purposes of researching your satisfaction with the services provided by ESB Networks DAC. This information may also be used to enhance our services as the Distribution System Operator.

9. Did you remember to?

- Insert your MPRN number
- Block Diagram/Single Line Diagram showing connection arrangements for Generation and Storage connected to each inverter and how these Inverters are connected to the distribution network, along with the position of any additional relays required in Conditions Governing the Connection and Operation of Mini-Generation DOC-030221-GAP and associated references
- Attach Type Test³ certificates for each Mini-generator as per I.S. EN 50549-1 AND a statement confirming that current protection settings as set out in DOC-030221-GAP are installed
Note: this is not required if an Inverter LCT Register Reference has been provided
- Where applicable, attach the ELS Technical Details and the Manufacturer's ELS Product Declaration for ESB Networks as set out in DOC-250221-GBT
Note: ELS is mandatory for all Non-Export Parallel Generators
- Attach a Letter of Authority if applying on behalf of the Applicant

Please return completed form and any additional documentation which is set out in the Mini-generation and ELS standards to:

**dsominigeneration@esb.ie or ESB Networks DAC, NC7 Mini-Gen Applications,
New Connections, Sarsfield Road, Wilton, Cork T12 E367**

Please note that incomplete applications will be returned.

³ The Type Test Certificate, or accompanying documentation from the manufacturer, shall specify the Short Circuit level Psc required at the connection point for conformance with I.S.EN 61000-3-12 for harmonics, in terms of Psc, Impedance R + jX, or an Rsce value.

PLEASE REMEMBER!

DON'T BUILD UNDER OR NEAR ELECTRICITY WIRES

**STAY SAFE STAY CLEAR
