Prior to taking business decisions, interested parties should not rely on the data set out in this information paper as a substitute for obtaining separate and independent advice to the matters covered by this document. Information in this document does not amount to a recommendation or advice in respect of any possible investment. The use of information contained within this document for any form of decision making is done so at the user's own risk.

Background

In September 2024 the CRU published its *Electricity Connection Policy – Generation and System Services (ECP-GSS) Decision Paper (CRU/2024101¹)* which will support the delivery of Ireland’s renewable electricity targets and support Ireland in achieving compliance with the Renewable Energy Directive III (RED III). As part of the ECP-GSS Decision (CRU/2024101), the System Operators were required to prepare and submit to the CRU in January 2025 proposals for the Pre-engagement Process and the High-level Technical Assessment (HLTA) including timelines, fees, required inputs and outputs, and other specific details. Following the submissions of these proposals, the CRU published its *Electricity Connection Policy – Generation & System Services: Pre-engagement Process and High-level Technical Assessment Proposed Decision Paper (CRU/202558²)* in April 2025 which set out the CRU’s proposed decisions on the Pre-engagement and HLTA process, including in relation to timelines, HLTA validity periods, approach for non-RED III projects (i.e. conventional generation projects, energy storage projects which are not co-located as per the RED III definition, or other system services technology projects), application fees, inputs and outputs of the process, and transitional arrangements.

A Pre-application Notification window opened for the period 16th June – 30th June 2025. Both RED III and non-RED III projects were required to submit a “Pre-application Notification” to the relevant System Operator by 30th June 2025. Only applicants who had submitted a Pre-application Notification were entitled to apply for a grid connection in ECP-GSS-1. The application window for ECP-GSS-1 closed on 30th September 2025.

This publication contains the list of applicants that will be processed by DSO in the ECP-GSS-1 batch.

Please note that the projects in ECP-GSS-1 may change should projects not proceed with their application or no longer be deemed eligible.

Applications are summarised in the table below:

Generation Type	Total Applications	Total Sum of MEC (MW)
Wind	9	261.6
Solar	18	85.98
HVO	7	16.45
Biomass	1	7
Hybrid Multi Source Generator	1	2
Supercapacitor	1	1
Grand Total	37	374.03

ECP-GSS-1 –Final List of Projects

* Please note that 'Offer Quarters' are a reasonable estimate and to be used for guidance purposes only. Offer quarters remain subject to review and may change after studies commence and the complexity of the node is confirmed.

** Please note that the 'assumed nodes' have been assigned based on Gate 3 Nodal Assignment Rules and are for guidance purposes only. They are subject to change once studies commence.

Offer Quarter*	Name of Facility	Applicant	County	Eastings	Northings	Generation Type	MEC (MW)	Assumed Node**	PP Reference
Q2 2026	Dillon Waste Solar Plant	Dillon Waste Limited	Kerry	083564	116326	Solar	0.35	Tralee	22411
Q3 2026	Lea Mór Single Turbine	Natural Forces Renewable Energy Limited	Offaly	215747	220103	Wind	4.5	Dallow	ABP 321244
